DAY 6 – FEEL ENERGISED!

On the second day of carb loading you should be eating an alternative high GI breakfast option that is easily digested. In general, today’s options should all be easily digestible to maximise the glycogen loading before the big day.

BREAKFAST

2 BAGELS TOPPED WITH SMOOTH NUT BUTTER OF YOUR CHOICE, 1 TBSP OF FRUIT SPREAD AND A SLICED BANANA

+ Fresh fruit salad – choose apples, hard pears, berries or nectarines. Chop a selection of fruits into a bowl, with a squeeze of lime or lemon juice. Add 2-3 spoons of coconut yogurt or soya yogurt and 2 tablespoons of seeds. Try pumpkin or sunflower seeds, or shelled hempseeds, or simply use a mix. The seeds are a great source of much-needed protein, and essential fats.
